About this course

Should everybody have the chance to prosper? Is it fair that some people live in poverty? Should we all have the right to access health care, technology, land and jobs? Did you know that In 2015, more than 700 million people, or 10 per cent of the world population, lived in extreme poverty, struggling to fulfil the most basic needs like health, education, and access to water and sanitation, to name a few. However, the COVID-19 pandemic is reversing the trend of poverty reduction with tens of millions of people in risk of being pushed back into extreme poverty.

This course is designed to help young people understand the challenge of ending poverty for in all its forms everywhere.

This course is designed for young people between the ages of 11 – 18 years. However, it can be modified for younger or older children.

Overview

Institution: NET Africa

Subject: SDG 1

Level: Intermediate

Prerequisites: None

Language: English

Video Transcript: English

What students will learn?

They will learn why there so much poverty in the world?

They will learn what protection those in poverty should have
